## CC Lab-1

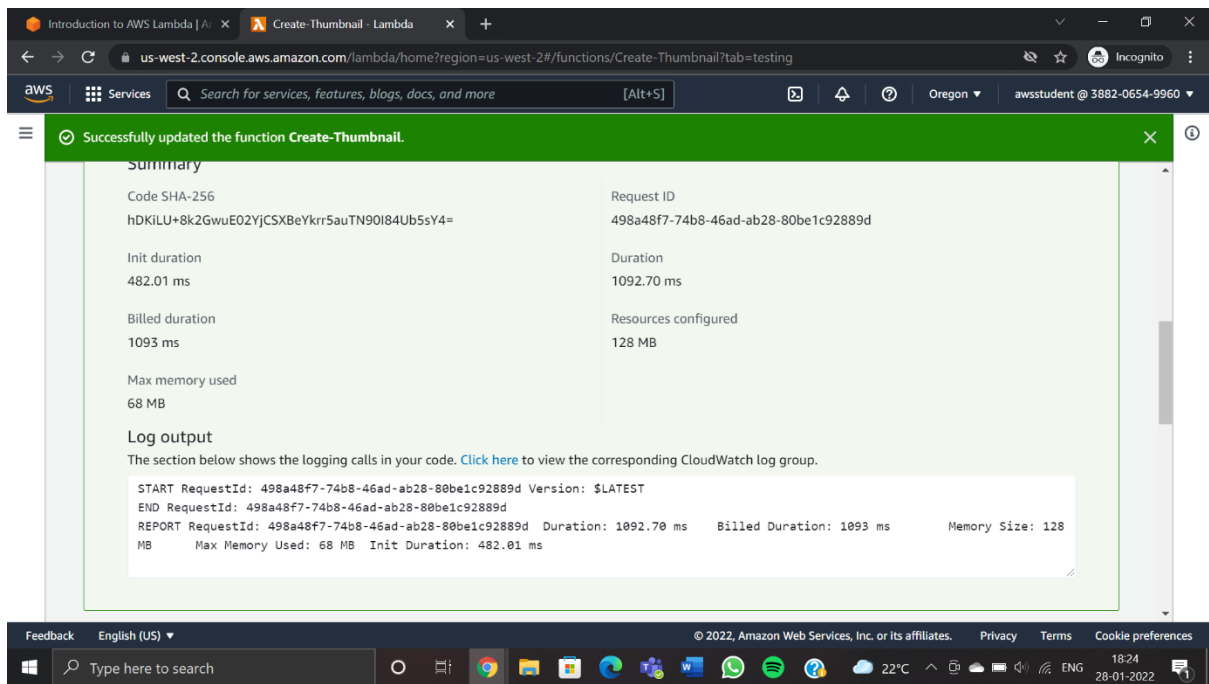

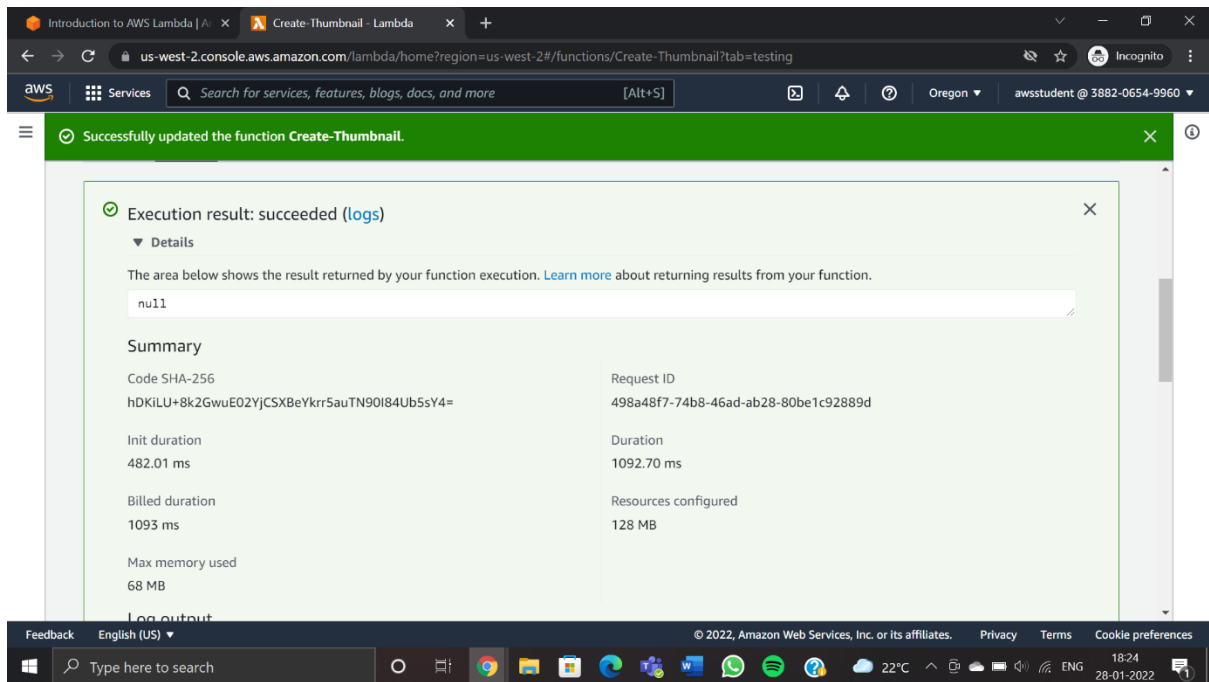

### Introduction to Serverless Computing with AWS Lambda

#### 1a. Showing two S3 buckets created

The screenshot displays the AWS S3 Management Console interface. A green notification banner at the top indicates the successful creation of the bucket "pes2ug19cs215-resized". The left sidebar shows the navigation menu with options like Buckets, Access Points, and Storage Lens. The main content area shows a list of four buckets. The first two buckets, "pes2ug19cs215" and "pes2ug19cs215-resized", are in the US West (Oregon) region and have private access. The other two buckets are in different regions and have public access.
